About me

I have a great passion for **Software Development** and **UI/UX design**. I spent the past two years working and learning about the field of Autonomous Driving. Alongside that, I enjoy creating beautiful **User Interfaces**, **iOS Apps** and providing customers with great **User Experience**. I have won some awards from my UI designs. I love working as part of a team in which I can grow and be able to contribute to building softwares that can change our future.
